

Growth Factor Signaling in Cancer progression: focus on Insulin/IGF system and progranulin

June 10, 2024, Catania, Italy

Aula Magna - Torre Biologica 'F. Latteri' – via S. Sofia 89 - Catania

13:30 Focus and goals

Moderator: Antonino Belfiore

14:00 – 14:45 “New regulators of IGF system: the role of IGF2BP3”

Katia Scotlandi

IRCCS Istituto Ortopedico Rizzoli, Bologna

14:45 Discussion

Moderator: Francesco Frasca

15:00 – 15:45 “Insulin/IGF Axis and the Receptor for Advanced Glycation End Products: Role in Meta-inflammation and Potential in Cancer Therapy”

Ernestina De Francesco

Università degli Studi di Enna “Kore”, Enna

15:45 Discussion

16:00 – 16:30 Coffee break

Moderator: Laura Sciacca

16:30 – 17:15 “Progranulin oncogenic axis in solid tumors: novel targets for therapy”

Andrea Morrione

Sbarro Institute for Cancer Research and Molecular Medicine and Center for Biotechnology,
Department of Biology, College of Science and Technology, Temple University, Philadelphia

17:15 Discussion

Moderator: Lucia Frittitta

17:30 – 18:15 “Novel Mechanisms of Tumor Promotion by the Insulin Receptor Isoform A in Breast Cancer”

Veronica Vella

Università degli Studi di Catania, Catania

18:15 Discussion

18:30 Closing remarks
